

D chord

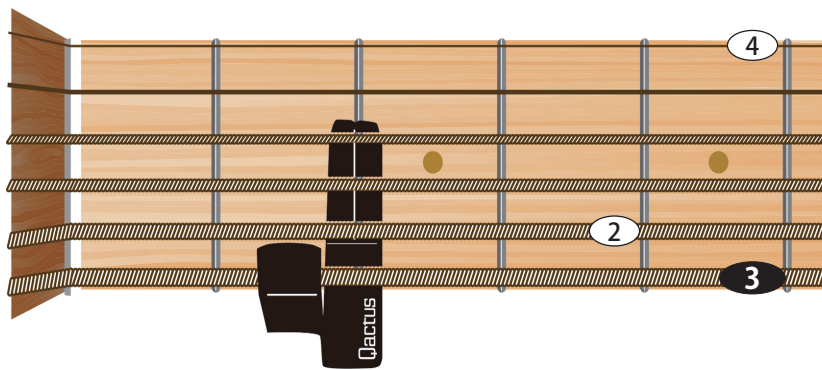

1up
stage

You can add any positions of fingers little by little when you got used to it

Follow the finger numbers

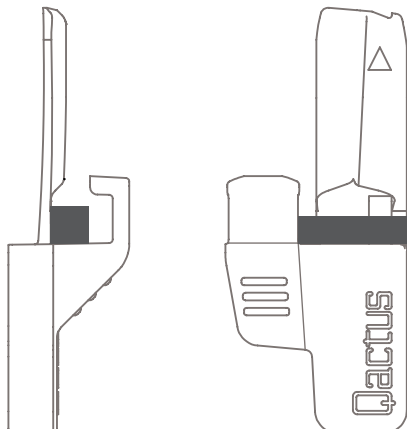

G chord

It is the function of **Qactus** to overcome the early stage

- 1 You can play the chords with only a finger as long as the black **dot** is pressed.
- 2 Just add one of the white **dots** in any order when you got used to it little by little.
- 3 It is time to graduate **Qactus** when you press all positions on the picture.

...Then you will be able to play guitar as normal, means without any assistance.
